

## **CONQUISTA – CRB500**

The CRB500 – JELLYFISH. Don't let its size fool you. This custom made 5.1-meter Power RIB combines a fully offshore capable Deep-V hull with the latest in lightweight and efficient 4-Stroke engine technology from Mercury: The brand and all new 115HP Fourstroke SeaPro in combination with the revolutionary Mercury ENERTIA X7 stainless steel propeller for unmatched acceleration, fuel economy and grip under any condition.

The CRB500's tubes are constructed from high end military grade carbon look black Hypalon made by Orca in France, usually reserved for government, military and paramilitary usage only and boast 5 independent air chambers rendering this craft virtually unsinkable. The hull was designed by Bakewell-White in New Zealand and displays exceptional fuel economy and offshore capabilities even in the roughest conditions. One of the many reasons why the very same RIBs were used by the New Zealand Police during the 2000/2003 Americas Cup Regatta in Auckland.

### **Specifications:**

- Length: 5.10 meter
- Beam Width: 2.20 meter
- Draft: 0.30 meter
- Deadrise: 17° @ transom
- Hull Weight: 420 kg
- Max. People: 6
- Tank Size: 75 Liters
- Engine: Mercury 115 HP SeaPro (CT) – 2 Year Warranty
- Eng. Package: Hydraulic Steering, Digital Gauges (4), Mercury ENERTIA X7
- Start/Trim: Electric Start & Power Trim
- Top Speed: 78.5 km/h @ 5500 RPM
- Range: 270 km @ best cruise (36 km/h)

### **Standard Features:**

- Hand Laid Fiberglass Hull / Honeycomb Deck
- Self-Bailing Deck
- LED Navigation & Anchor Pole Lights
- Under Seat & Console Storage
- Heavy Duty Rub Rail
- 8 Heavy Duty Handles & Diver Lines
